

So Many Design Options ...

Choose from a wide range of wood species and looks to suit your individual taste, style and needs. Studio wood flooring is available in a variety of stains and finishes and in plank or 3-strip formats.

Ash White Stain

Oak

Hevea Distressed Stone (3-Strip only)

Oak Brushed Limewash (Plank only)

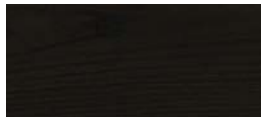

Iroko

Oak Rustic Coffee

Merbau

Oak Rustic Light Panga

Oak White Stain

The above colours are indicative only. Please make your choice from actual samples and check the colour match before installation. Being a natural product, colours will vary from pack to pack; disperse planks evenly during installation.

Not suitable for wet areas such as bathrooms.

NZ Building Authorities consider kitchens to be wet areas and as such care should be taken to select appropriate floor coverings. WoodWorks engineered timber flooring is able to withstand incidental wetting provided any spillage is mopped up immediately. If there is any risk of flooding or undetected leakage then alternative floor coverings should be considered.

6 Great Reasons For Choosing Wood Flooring

1

It looks great

Wood has always been a natural choice in homes all around the world. Experience the beauty of natural wood flooring in your own home.

2

It's practical

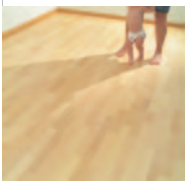

Modern pre-finished wood flooring is easy to keep clean and looking great; advanced surface coatings provide superb wear, scratch and stain resistance.

3

It's comfortable

The warm feel of a genuine wood floor under your feet is superb and can create exactly the mood you require; calm or lively, stylish or refined.

4

It's healthy

Wood flooring greatly reduces dust mites that are a known cause of asthma; dirt, dust and pet hair are easily removed, maintaining a healthier living environment.

5

It lasts

The 3-layer engineered construction is strong and dimensionally stable; wood flooring can be re-sanded 4-5 times over its lifetime and is backed by a 10 year manufacturer's warranty.

6

It's an intelligent choice!

Wood flooring is an investment which adds real value to your home; it feels warm and looks great, it's practical and lasts a lifetime with minimal care.

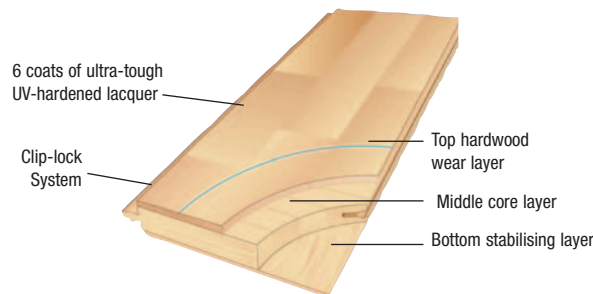

CHANGE YOUR FLOOR IT WILL CHANGE EVERYTHING

studio Wood Flooring by WoodWorks

Studio Wood is a range of high quality prefinished wood flooring which offers one of the largest choices in species, colour and design in New Zealand. Most species are available in either plank or 3-strip format, in satin or matt lacquers. A number of stains and distressed finishes provide additional design options.

Studio Wood flooring is made from prime grade wood, sourced from sustainably managed forests around the world. Prefinished wood flooring helps to conserve forests by consuming less slow growing timber in the top wear layer and using fast growing renewable species for the core and reinforcing layer. Our manufacturers purchase their timber only from legal sources and use lacquer and adhesives with E1 low formaldehyde certification.

Wood flooring, being a natural product, will expand and contract with changes in temperature and humidity. Engineered floors with 3-layer construction, such as Woodworks, are specifically designed to combat this movement as the cross-laminated layers provide superior stability, preventing twisting, warping and gaps in floors.

The Wood website, www.woodflooring.co.nz contains just about everything you need to know about wood flooring, including how to choose your floor, colours available, a gallery of photos of installed floors, how to install and maintain your floor, plus an extensive collection of information on accessories such as adhesives, cleaners, finishing trims, soundproofing and underlay.

The photos and colours in this brochure are indicative only.
As wood is a natural product, shade variations are normal.
Please check colour variation before installation.
Note that Iroko has a high degree of colour variation immediately after installation, which will fade to be more consistent over time.

studio Wood Flooring Warranty

The manufacturer warrants that this wood flooring will not require replacement due to normal wear and tear or structural defects for a period of ten (10) years from the date of installation when specified, installed and maintained in accordance with the manufacturer's recommendations, and subject to the following terms and conditions:

This warranty is only valid for the original purchaser in a domestic setting. It does not cover damage caused by:

- Poor installation, irregularities or movements in the sub-floor.
- Improper or infrequent cleaning, or improper cleaning agents or methods.
- Inadequate protection to prevent the ingress of dirt from external sources.
- Intense point loading pressure, such as stiletto heels, or unprotected furniture (use of plastic protectors is highly recommended).
- Abnormal use, or damage from dragging furniture, pet claws, sharp objects, burns, or other such accidents.
- Indelible staining from tar, grease, dyes, waxes, inks, etc.
- Marks left by the use of rubber mats or rubber protectors.
- Exposure to excessive sunlight, temperature, moisture or humidity.

Being a natural product, there will be minor imperfections, and grain and colour variations in every wood floor which is considered to be a feature, not a defect. Timber will fade when directly exposed to harsh light and ultraviolet rays. Use drapes or other systems to protect the floor from excessive sunlight. A slight colour change immediately after installation is usual.

Any claims under this warranty must be made in writing within the guarantee period and be accompanied by proof of purchase and evidence of the fault. Any such claims will be paid on a pro-rata basis taking into account the number of years of satisfactory product performance.

The distributor's obligations under this warranty are limited to repairing, replacing or refunding any product which in their opinion are defective. The distributor shall not be liable for any installation costs, special, incidental, indirect or consequential loss or damage which may result from or relate to any claim.

Cleaning Recommendations

Damp mop the floor weekly or more often depending on the amount of dirt and foot traffic. A clean mop, warm water and a neutral pH detergent are all that is required; for best results use *Tarkett TarkoClean*. Avoid using waxes and polishes which leave residues attracting more dirt. The use of doormats at all entrance points is highly recommended to reduce the amount of grit and abrasive particles from shoes. Mop up any spillages and treat stains immediately using an appropriate cleaning solution. Use *Tarkett Refresher* periodically to revive your floor.

Contact your Studio Wood stockist if you have any issues with floor maintenance.
